PURCHASE ORDER
SHIPMENT TERMS AND DEFINITIONS

The vendor should make sure that they review and understand the terms below and are responsible for making sure they ship correctly based upon the terms on the purchase order. The vendors should use the ship window stated on the purchase order to determine when they need to ship. The purchase order verification tool on the vendor portal should be used to confirm the ship window and the status of the purchase order. Transplace will check their portal for the shipping window, prior to accepting delivery. To gain access to the vendor portal, please contact vendor relations vendorrelations@c21stores.com

The ship date on the purchase order is the first date that the shipment can be given to the carrier. The ship complete / In DC date is the last date the order can be shipped. For prepaid shipments, ship complete / In DC date is the last date the shipment can arrive at the consolidator or our distributions centers.

C21 has recently changed to a new merchandising system, changes below:

FREIGHT CHARGES

- Freight charges cannot be added to the merchandise invoice
- If an invoice is received with freight charges, it will be paid net of freight

Any of the above will result in a freight chargeback to the vendor.
ELECTRONIC DATA INTERCHANGE (EDI)

One of Century 21 Department Store’s core values is Grow. Each day we are reviewing how we can achieve that core value. We are working to better utilize technology by increasing our use of EDI.

All vendors need to contact the EDI office (edisupport@c21stores.com) in regard to their EDI capabilities. Before a vendor is considered EDI compliant, the vendor must be approved by C21 EDI based upon testing of the interconnection and processing of the EDI documents.

Century 21 utilizes the below documents:

- 850 Outbound Purchase Order
- 852 Sales Data (provided upon approval of buyer)
- 856 Advanced Ship Notice (ASN)
- 810 Invoice
- 997 for both inbound and outbound documents

C21 uses GXS/OPENTEXT as our VAN.

C21 sender/receiver IDs:

Production: 12/2013482252
Test: 12/2013482252T
Version 4010

EDI document specifications can be requested by contacting the EDI Team (edisupport@c21stores.com)

C21 uses GXS catalog for retrieval of UPC and style information. Please go to our micro-site on where you can find out more information regarding attributes and how to get started using GXS for UPC information. http://www.gxs.com/century21
